From the Office in the Garden

THE NEWS IN CAPSULE

*EDITORIAL.....THE SPACE AGE----ANNO DOMINI 1963: The Prison Planet, restive and sky-bent, peers out o'er the brink of the vast Unknown! Can Man escape from Earth in his 3-D body? Dare we risk the radiation belts? Is it worth the billions it will cost? The Human Race, its numbers swelling to suffocating proportions, pauses and ponders! We have sprinkled our perimeter with satellites. TELSTAR has mirrored back its marvels. SYNCOM can now draw together the eyes and ears of 40% of Earth's inhabitants. It can talk to a billion people and can readily transmit facsimile and television to hitherto unreachable parts of the globe. We have orbited a new satellite powered by nuclear energy, which will swing on for 900 years! We have shot distant probes to orbit "forever" around our Sun! The big dream now is APOLLO, the Man-to-the-Moon project. It will consist of a 12-ton Mother Ship and a Lunar Bug. Its astronauts will have to live two weeks in pressure suits. Work connected with this project goes on in 48 states. A billion dollars will be spent in Florida alone on the huge layout there. Regular "land booms" spring up in the wake of the Space juggernaut. Twenty thousand factories are cooperating.....Yet there is a difference of opinion in estimating the value of this gargantuan program. Some say, who gets to the Moon first will dominate the Earth. Others, like Dr. I.M. Levitt, head of Fels Planetarium, claim the Moon has no military value. We are told Russia has already picked her Moon team (and it includes a woman).....President Kennedy recently proposed to the U.N., "Why shouldn't the U.S. and Russia join forces in the conquest of Space? Why do we need competition in sending a man to the Moon? Such an effort should represent the whole of humanity.".....Prestige, politics and science are all involved. Another spokesman recently stated, "What we stand to learn from this Man-to-the-Moon program is greater by far than from any other effort ever made! Apollo has become a fact of our time."....."This generation is going to bump its head on the Sky," predicts Paul Harvey. Ere long there is due to rise at Cape Canaveral the LARGEST BUILDING EVER CREATED BY MAN. It will be the new vertical assembly building ----the "shipyard" for the giant Saturn-V moon rocket. More than 200 engineers are now at work on it. The building will stand over 500 feet high and will be air-conditioned. Its door will be 456 feet tall. It will loom larger than the Great Pyramid of Giza.....In 2000 years of preaching the Gospel of Jesus, our principal improvement has been in bigger and better ways of killing each other. Today, bombs ride our skies! We have settled into the "Quiet Panic". The Behemoth of Automation is gobbling up men's jobs at the rate of ten thousand a day----and idleness is dangerous! Unless we are going to let the bombs put us under, there seems only one way to go-----OUT! Yes, HUMANITY WANTS OUT! The first door on Earth to have been labeled "EXIT" was a rambling old residence at 1528 H Street, N.W., in Washington. It is the original headquarters of NASA, which since has become so big that it has

offices all over the city. At NASA, George Mueller -- known as the Moon Czar -- presides. He will be spending some \$10 million a day. Five years ago, this agency began with a staff of 9200. Today the number is over 30,000 -- 1900 in Washington alone. It takes a thick 8-lb. directory to list all the business concerns working on things that have to do with our Space effort, of which Apollo is now the spearhead. Critics of the Space program have recently caused appropriation cutbacks in Congress. But again, many have expressed amazement at the public's response to such an extravagant program.....Its ultimate value lies perhaps in hazy outline, far beyond the present grasp of men's imaginations, for it will enlarge our concept of the Creator's works. "When your evolution has progressed enough, you will begin to understand how little you know of science," writes an esoteric source. And, says John Dewey, "Every great advance in science has issued from audacity of the imagination.".....So today, Man stands on the misty threshold. Over him hovers the Spirit of Adventure, impatient to catapult him forward. HISTORY HANGS SUSPENDED.....
.....The Moving Finger-----waits!

*WHEN THE WORLD GETS TOO MUCH FOR YOU, go to the woods or to your garden, get on your back & look only up-----let yourself "go" with the swaying branches, with the sweep of birds & with the slowly rolling clouds. THEN YOU ARE IN ANOTHER WORLD.

*ESOTERIC FRONT: Head of Dept. of Psychology, U. of Va., says science resists ESP because it is a great threat to established ideas; adds, "The data portends a revolution which will make the Copernican Revolution seem trivial by comparison."..... In Paris they spend 400 mil \$\$ a year on fortune tellers.....There is an International Spiritualist Assn. comprised of 27 countries; at their last London meeting, they had audiences of 1200 to 1500 a night.....The veil between 3-D & 4-D is now growing very thin. The 4th Dimension is described as just a great EXPANSION in all directions. How else are we to prepare ourselves for it but to watch, share & analyze what is happening around us. Start your own Discussion Group.....Nandor Fodor said on TV that poltergeists are not ghosts at all, but subconscious explosions of maladjusted youth - which take form in actual teleporting of objects about them.Woman in Calif. reports phenomena on TV, with set turned off & later unplugged. "Disc-shaped objects" hovered, then moved slowly across screen; lasted 40 min., 2 nights in a row.....As the veil thins between 3-D & 4-D, Black Magic appears to be on the rise. Stores in N.Y. adv. & sell equipment for it. This is the NEGATIVE side of the Occult & calls for EXTREME WATCHFULNESS.....Adam Rutherford, 60 years a student of the great "prophetic" Pyramid, spoke in Wash'n. He says WW-1 was "the beginning of sorrows"; declares Planet Earth is now "evilly enveloped-----things happen too devilish for humans to be wholly to blame." He expects Armageddon, then the "old order will completely collapse." He sets 1979 as the year the world will come under Divine Rule & God's will shall be done on Earth as it is in Heaven..... Two miners, trapped in a black coal mine in Penna. for 2 weeks in Aug., saw phenomena which may have fortified their faith in their approaching rescue. They saw a DOOR covered with BRIGHT BLUE LIGHT. Then there appeared 2 men, who opened the door. On the other side was a beautiful marble stairway. "We saw what we saw," they said; "these things happened." They declared there was much more----"too deep to talk about.".....A prominent New Age leader who travels much tells LLP there is a great surge toward things psychic; says objective proof of former lives, etc., is that under certain conditions people can talk with strange tongues ("awakening of former memories.").....Prominent parapsychologist tells of big business executives who are diverting company funds into projects that originate on "esoteric levels"; plans & counseling come thru ESP channeling, from non-3-D intelligence!.....Prof. of Physics at a Southern Univ. has over 100 students staying after class to hear tapes on profound New Age subjects. The students don't know it, but the source of the tapes is "NOT OF THIS EARTH".....A Detroit group getting ESP messages from "space people" were told by one of the communicators that he was in Detroit at that moment, in the physical body----one of 72 "spacemen" living in the city & apparently passing as ordinary Earthlings.....The blueness of Washington's sky - (always opposite the sun) - has been remarked by many as being near the point of PHENOMENA. Such has been predicted by esoterics. At times it verges on brilliant pale indigo---beautiful beyond description. Some think it indicates the planet is entering some new area in Space ----or is it related to increased cosmic bombardment? How is it where you are?----- Write us.

*SAUCER FRONT: "Flying Saucers have not died out," says Dr. J. Allen consultant to the U.S. Air Force. In the Yale Univ. science magazine, the physicist writes that there are MORE SAUCER REPORTS this year than ever before, & for every report that reaches the USAF, there are many that do not!.....Britain's "great UFO flap" of July-August still echoes around the world; it was a HUNDINGER! In Newcastle, Bebington, Flamborough, Yorkshire, East Lothian----discs flew by day, strange lights flew by night. Then came the clincher: CRATERS began showing up----saucer-shaped depressions with a deep cylindrical central hole, & straight-edged grooves radiating evenly outward. London's Flying Saucer Review covered the story adroitly; its editor, Waveney Girvan, was quoted in the press, his opinion given equal hearing with that of the Astronomer Royal. In Wiltshire, Farmer Roy Blanchard's field had an 8-ft. crater----within the circle, not a trace was found of potato & barley plants which had grown there----"no stalks, no leaves, no roots." Stones were crushed as if by some massive weight. A cow nearby had burn marks. Said Farmer Blanchard, "I believe we have received a visit from a spaceship from another world." The RAF blamed a "meteorite" - but Girvan unmasked this as false. The Govt. was somewhat shaken as MP's arose in Parliament & openly challenged the Air Ministry for an answer; then the matter was tabled as unfathomable....The Yorkshire Post summarized: "About 70,000 people have seen Flying Saucers. Of course, they could all be wrong...".....Big headlines in Chicago papers Aug. 6 told of "flap" in Southern Illinois, where a "round ball of bright white light" played tag with a car at midnight along 12 miles of country roads; the 18-yr-old driver (in a "souped-up" car) hit 120 MPH but couldn't out-race the UFO. At one point the light glowed orange & swerved directly over the car; it appeared to be about 12 ft. in diameter. As the lad reached home----almost speechless with fright----the light halted over the farmhouse; his entire family watched in awe. Soon a state trooper, a marshal & a deputy sheriff arrived; all saw the UFO climb slowly in the southern sky, where it hung until it faded out at dawn.....Similar reports of dazzling UFO's following autos came from Adelaide, Australia; Mt. Gambier police said lights changing from white to red flew over & alongside cars for many miles.....At 9:18 PM June 20, startled New Yorkers saw a white, fiery object plunging earthward in the vicinity of the Bowery; next day the NY Mirror said object was "still classed as a UFO.".....An Aug. report says there is an overall WORLD SEARCH going on for UFO info----special planes (Lockheed Constellations) are measuring magnetic effects thought to be caused by Saucers; operation is based in Canada & U.S.; title: "PROJECT MAGNET".....Any-one honestly concerned about the future of the human race will place Ufology high on the list of subjects needing urgent & extensive study, says London's UFO Group LUFORO - & adds, "UFO's appear to be associated with a mature technological race"..... N.J. Saucer Bulletin contains lengthy article by Judge Carter, further confirming the widely known 1961 Eagle River, Wisc., landing story of Joe Simonton.....Former technical adviser to Holland's Sec. of Defense now states, "Flying Saucers & flight into space do confront us with other worlds----perhaps other races..."....On a warm evening in June, citizens of the small town of Rubidoux, Calif., saw a red glow rising "like a moon" from behind the trees; atop the glowing oval body was a "silver dome with protruding antennas"; it hovered there for 1 hour, then moved slowly to Mt. Rubidoux, where it paused for another hour before rising suddenly & disappearing.Hong Kong's China Sunday Post recently headlined news of a "Phosphorescent Flying Saucer, 3 times the size of the Moon," which sailed over Nairobi, Africa; it crossed the jungle sky in 5 min.; police & meteorologists were baffled.....NICAP tells LLP they are getting calls from TV & radio stations all over the U.S., asking Maj. Keyhoe to be on their discussion programs.

*NICAP'S BLOCKBUSTER IS ON THE WAY! The nation's largest UFO research group -- NICAP in Washington -- will shortly fire off its dynamic 128-page Report to Congress (title: "THE UFO EVIDENCE") giving clear, concise, irrefutable proof of the reality of Flying Saucers. Already there are rumblings from the Pentagon. Close observers warn that "judging by past performance, every conceivable subterfuge will be used by the Air Force to bury the subject." They expect a hurricane wind of AF propaganda, timed to meet NICAP's release head-on. "But," they add, "censors are not invulnerable; strong public pressure can topple them." The secrecy lid can be pried off----if everyone "jumps in & joins the battle"--!!

*HOW THE SAUCER HUSH-UP WORKS: A high-level Govt. source has informed NICAP that very important UFO information is classified ABOVE "Top Secret". No such classification has ever been known to exist before. According to this unimpeachable source, material so classed is unavailable even to many top-ranking officers & officials who do not have the ultra-high priority rating (or "need-to-know"). (Credit: UFO Investigator, NICAP, Wash.DC).....What is world officialdom afraid of? Do they fear panic? Do they fear the coming of Free Energy & an upsetting of the economy? DO THEY THINK THEIR METHODS CAN HOLD BACK THE DAWN?

*REPUBLICANS vs. UFO SECRECY: Head of Republican Nat'l. Committee, Wm. E. Miller, says the committee's Director of Research is studying NICAP's evidence of UFO censorship for possible action by the G.O.P., aimed at a Congressional probe of unwarranted secrecy. "Under no circumstances," declared Miller, "should the Govt. ever lie to the American people." NICAP is cooperating with the committee.

*SAUCERS CAUGHT ON FILM: On the night of June 25, a staff member of the Quincy (Mass.) Patriot Ledger was photographing stars on color film, using a 30-min. time exposure. When developed, the film showed a "clear pattern of orange & white lights which moved into view, hovered in 7 distinct places, made several right-angle turns, then left the camera's view." Photo was supported by dozens of sightings in nearby cities, of a UFO with similar-colored lights, which maneuvered in sharp rectangular precision without pausing. Later, New Englanders witnessed a V-formation of 5 yellowish-white, oval shaped objects sweeping across the afternoon sky.

*EUROPE'S "FAR-OUT" CONGRESS: Holland's "Disc Digest" describes the packed European Congress for Borderland Sciences, held last year at Munich, which examined such startling new subjects as "Biotechnics" & "World-renovation". Karl Veit, forthright leader of UFO research in Germany, gave strong factual data proving that Russian scientific circles are now DIGGING INTO THE SAUCER MYSTERY. Warning that Russia might soon overtake the West in UFO research, he cautioned the Gov'ts. of the Free World "not to accept the censorship of the American Air Force without protest." (For shame that such an indictment of our glorious country is possible! -Ed.)

*WHO'S TURNING 'EM BACK ON? Four U.S. satellites have posed a bizarre mystery. First they went dead -- one by one. Then, after a period of time & with no apparent explanation, they came back to life & began sending signals again. Satellite ANNA, the blinking signal light, worked well for 2 months -- was "out" for 7 months -- then somehow turned itself on again in Aug. The same trick was staged by TELSTAR-2.... The answer? It would be a minor miracle for the sun's heat to have soldered broken wires together again correctly - & to have this happen in ALL 4 CASES is out of the question. The scientists on these projects admit they're stumped!

*HEALTH FRONT: KREBIOZEN, the anti-cancer drug used with good results on over 5000 terminal cancer patients, has been rejected by the Food & Drug Adm., but Chicago's pioneering researcher - Dr. Andrew C. Ivy - won't give up. FDA's method: it evaluated 504 cases; it tossed out 216 of them as "not having cancer in 1st place"; it then claimed 273 cases showed "insufficient improvement" (most patients were on death's doorstep when given Krebiozen initially.) Those in the know say that such audacious distortion of the facts will eventually boomerang. Despite FDA's veiled threats & pressure tactics, Dr. Ivy told the press he intends to conduct his own clinical trials of the drug & vindicate his faith in it as an answer to cancer's scourge.....The FDA combined forces with the Amer. Med. Assn. in staging their 2nd "Congress on Quackery" (Wash. Oct. 25, 26) - to attempt to destroy the health food movement & all approaches to healing other than the drug approach. Watch for the expected outpouring of AMA "smear propoganda" in radio & TV commercials, planted news items, etc. Then watch for a hard-hitting rebuttal by the National Health Federation, guardian of your freedom of action in the vital field of health. Latter staged a counter-Congress in Wash. same date.....Science is now working on "electronic anesthesia" to put patients "under" during surgery. Since the body is electrical, it is possible that a way will be found to "turn people ON & OFF," says Electronic World.....The public is unaware of the "biological dynamite" in commonly used pesticides, declared Nat'l. Cancer Institute's Dr. W.C. Hueper in testimony before a Senate comm.....Profiteering on the sick is the No. 1 crime on this planet. All necessary medicine should be dispensed at cost. In this dollar-hungry world, the unfortunate moral is----- "DON'T GET SICK"--!!

*WAR: We have enough nuclear power on hand to destroy the ENTIRE GLOBE 125 times over. "Our defense spending could be cut by 22 bil \$\$ a yr, but the Military-Industrial complex won't permit it." Verily, we are slaves to the "God of War".....We have stock-piled enough weapons to aim a 10-ton bomb at the head of every man, woman & child on the planet. "We & Russia must now make a choice between the Quick & the Dead!" (Radio, Aug. 2).....Here, talk of a bill in Congress to limit the Defense budget so that "killing a man more than once" will be prohibited....Sen. Dodd believes Russia is close to developing the NEUTRON BOMB (it kills people but doesn't damage buildings).....Univ. of Chicago, birthplace of A-energy & the Bomb, is now breaking its ties with Military research; "it left a scar on them," which they deplore.....The split-second "Alert" under which we live is shown graphically in the movie, "A Gathering of Eagles"; bombs are airborne around the clock; it is possible for "Eagle" HQs to lift a phone & reach any of these bombing planes instantly, no matter in how remote a country it may be flying....Member of Socy. for Social Responsibility in Science writes that he moved his young family to N.Z. a year ago because "we faced stark reality that total war is virtually inevitable with existing trends"....Students at MIT, Harvard, Yale, etc. are holding "bull sessions" half the night, letting off steam about our "catastrophic course"; general tone is -"too late!".....England is selling nuclear radiation measuring equipment to Red China!Sept. 13 an underground nuclear test was made in Nevada; "may have equalled a mil tons of TNT." Rocked Las Vegas, 65 mi. away, like a rolling earthquake.Much fallout said to have seeped out from below ground, ruining milk, endangering children's thyroids, etc....Loyalty to whole of mankind is now a necessity, says Dr. Linus Pauling, heading "Scientists Against The Bomb."

*MAILBAG: May Harvey, N.Z., writes, "Dear Friends in the Garden, In answer to your question, our Heralds of the New Age now numbers some 2000 members, steadily growing, over the world literature being translated into Dutch, Danish & German".....A renewal sub from the stormy Dr. Chesney, arch-foe of the medical "dictators"; he's home after a sojourn abroad & writing more books.....Our subscriber with the U.S. Planning Commission in Ghana writes of his recent whirlwind tour of Africa..... R.M., Cal., writes of motoring in a remote area when an object swooped low, as if to land. "We were amazed to discover that Polaroid cameras would pick up discs & objects that were NOT VISIBLE TO THE PHYSICAL EYE. This was verified by the use of 2 Polaroids at the same time, both picking up identical objects".....A.A., Colo., says, "Your latest edition is so charged with dynamic, startling news, that I want extra copies to share with my friends. The UFO is the hopeful news to give to the world".....H.H., N.Z., writes, "We know that fallout in N.Z. has increased sharply, but all this is being kept under cover by politicians".....An Ohio minister writes, "I feel that the greatest blunder the organized Church can make is its silence on Healing thru faith & prayer alone".....Mrs. H.V. Goodell, 842 N. Lafayette, L.A., tells of sparkling New Age art she's offering for Christmas.....Inexhaustible space writer Arthur Clarke, now homing in Ceylon, buzzed thru Wash'n; he tells us he has recovered from his serious accident & illness. Bravo!!

*OUR BIG DYNAMIC PICTURE (11"x14") has made such an impression that calls have come in for it in color. Two artists have volunteered to put some of them in beautiful oil colors. They are very effective. The number is of necessity limited-----can be had for a \$5.00 gift to the work of the LLP.

*NOTE: There was no August issue of The Little Listening Post.

*THE LITTLE LISTENING POST is issued every few weeks, when the news "boils over"---- from Washington, news Capital of the World. It is listening to everything on the Far-out Front----to everything from the whispers of Mysticism to the roar of Space rockets.....And now, before we blast off, let's take a look at the weather: Quake in Yugoslavia; landslide in Italy - thousands killed; quake in Pakistan - 1 million homeless; hurricane that broke all records by staying 4 days in one place killed thousands in Haiti & Cuba & destroyed half the latter's crops.....All this in a SINGLE DAY'S NEWS DISPATCHES. Could it be Nature is nudging us to move out----- toward the stars, perhaps?.....Listen in with The Little Listening Post!
